April 17 2023 - Service call to fix NVR remote viewing issue after power outage occurred. The TV / Monitor in Karli's office had blank screen (no cameras) with upgrade message on it. Reset the HDMI in and out and the cameras were now on screen however the upgrade message was still displaying on screen. The upgrade message was from the TV itself and not the camera NVR. I used the TV remote and completed the software upgrade and once it was done only the cameras were on screen / working okay. The TV / Monitor on the other side of the house was logged out so I had connect a monitor to the camera NVR and enter the password then re-input the HDMI cable. Once this was done both TV's were working properly. Gave Karli a link to Bestbuy for a small APC uninterruptible power supply so this would re-occur on the next outage. HST (ON) on sales	1	100.00	100.00
