## Notes

After attending the "All staff Gathering" in Thunder Bay I felt unwell and tested positive for Covid 19 on November 17. I was very ill and was off sick from work November 20-24th. After being off three days in a row with Covid I contacted the local health clinic in an effort to obtain a Dr.'s note. I was informed that unless I was in medical distress to stay away and to continue to self-isolate. I took a picture of my positive covid test on November 23 which is attached hereto. As of today November 27, I continue to test positive however I am well enough that I am working remotely.
