2022-09-14 - 2022-09-15 / Sick Going south for eye surgery.	14.00
2022-09-16 - 2022-09-16 / Sick I have eye surgery scheduled for the 14th, and the 15th is my assessment and then travel home day, these 2 days are already approved. But i had an appointment this morning and the doctor tells me I need to wear an eye patch for 5 days after surgery. Since the surgery is in my good eye, this means I won't be able to see until the eye patch is done, which will be Monday the 18th so I should be back to work that morning. FYI my right eye is a failed transplant and vision is less than 5%, just sees shadows so this surgery is of most urgency to keep my vision.	5.00
2022-09-20 - 2022-09-20 / Sick My surgery went well, I am able to see clearly for the first time in over 2 years. However, my short term vision needs reading glasses and at my assessment I was told this morning I have to wait a full 7 days from the day of surgery, to formulate a plan of what they will do, as my eye needs to heal before I can get a prescription for a pair. My next assessment is Wednesday morning at 8am then I will know for sure what the plan is, right now it's a waiting game. All is good though, it's feel fine and I can drive safely. But I got a headache from working on a computer this morning, so definitely in need of reading glasses.	7.00
2022-09-21 - 2022-09-21 / Sick Due to severe irritation to my eye, I was not able to work.	7.00
