2023-07-04 - 2023-07-04 / Sick as careful as I am when out in the sun, following the recommended ideas to avoid heat stroke as I believed it happens with direct sunlight. I suffered a heat stroke on Sunday, July 2nd and it was not due to direct sunlight, it had to do with the heat. Keep your body cool and hydrated to keep this from happening to you.	7.00
2023-07-10 - 2023-07-10 / Sick I had turned back from Chapleau due to having an allergic reaction to something I ate that morning (as per email dated July 10th). I came back, stayed in the office, but did not do any work as I had taken benadryl and it made me sleepy. I felt better in the afternoon so was able to continue with work. I had made up a leave request but may have not saved it.	3.00
